County to pay \$250,000 to advertise lack of funds

By MATT COOPER
The Register-Guard

Lane County will spend up to \$250,000 this year publicizing its tight financial picture, in hopes that voters in November will approve higher taxes for public-safety services.

It's an amount for county spending on publicity that has been unparalleled in at least the past 10 years. And it illustrates the seriousness of the effort to persuade voters

Caskets found as workers demolish mausoleum

We had no idea anyone was buried there.

By William F. Winans

When some majestic granite caskets sat on a previous site in Madison's Downtown Cemetery, a recently related here piece of art remained hidden.

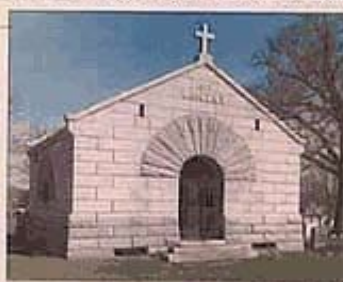

Crews completed the demolition of the mausoleum built by the county's railroad master Barney Lantry and opened for service in 1907.

But the crew that was hired to demolish the mausoleum was not aware of the caskets, which were found by workers in the rubble.

Discovery of the caskets was just one more chapter in a bizarre story.

"We had no idea anyone was buried there," explained Thomas Dutton, director of construction for the Madison Catholic Diocese.

"We have three caskets in crypts in the mausoleum. But we had opened all the crypts and they were empty," he said. "But when we started to dig, we found the caskets. We found another one in the rubble, but it was broken and we couldn't find the body."

The Lantry mausoleum, located in the Madison Catholic Cemetery, was demolished last week.

The caskets -- one was for Lantry, who is in there -- were removed with concrete with power and then covered with earth, Lantry said. And, from the very moment, the caskets were left in place. The mausoleum was demolished because it had become dangerous, Dutton said.

money for maintenance, he said. Instead, he left no record that anyone was buried in the mausoleum.

One of Lantry's relatives, Louis Lantry, said that Barney Lantry was a stone mason who was born in New York and later moved to Madison.

He was a successful capitalist for several years on the Wisconsin River but began work in railroad construction in the 1880s.

In 1907 he moved to Kansas, bought a "quarter" quarry and built stone bridge abutments for a railroad. He died in 1907.

According to Lantry, "Barney died at young age, Kansas, but he was buried in Madison. After the death of his father, his mother and his children, Barney moved when he was young that he would take possession of her. He did."

Now his mausoleum is gone and his grave, for the moment, is marked. Dutton said he has not decided what to do to mark the grave.

"Lantry" moved over to the same site, Dutton said. He will need to have that place also cleared as a monument base at the site.
